

Governance Signal / Control Repository

Lifecycle phase	ID	Category / domain	Control / signal	Evidence / source	Trigger / threshold	Action / gate effect	Accountable role
Pre-Live	INT-001	Intake	Use case not registered	AI registry, intake form	Any agent/use case outside registry	Block intake; register use case	Business Owner
Pre-Live	INT-002	Intake	Business owner missing	AI registry owner field	No accountable business owner	Block approval until assigned	Business Owner
Pre-Live	INT-003	Intake	Executive sponsor missing	Sponsor assignment	No sponsor for material/high-risk use case	Escalate for sponsorship	Transformation Office
Pre-Live	INT-004	Intake	Use case scope unclear	Use case brief, process scope	Ambiguous process, users or decision boundary	Clarify scope before design	Product Owner
Pre-Live	INT-005	Autonomy	Autonomy level undefined	Autonomy classification	Recommend/decide/act level not documented	Block risk classification	AI Governance
Pre-Live	INT-006	Channels	Target users/channels undefined	Requirements, user journeys	No target user group or channel	Complete requirements	PM
Pre-Live	VAL-PRE-001	Value	Value hypothesis missing	Business case, benefits log	No measurable business hypothesis	Block approval to proceed	Business Owner
Pre-Live	VAL-PRE-002	Value	KPI baseline missing	Baseline KPI report	No baseline or target before build	Create baseline before approval	Business Owner
Pre-Live	VAL-PRE-003	Value	Benefit attribution model missing	Value ledger design	No link between usage and outcome	Define attribution method	Value Steering
Pre-Live	VAL-PRE-004	Value	Value owner not assigned	RACI, governance register	No named owner for benefits	Assign benefit owner	Executive Sponsor
Pre-Live	ADP-PRE-001	Adoption	Change impact not assessed	Change impact analysis	Affected roles/processes unknown	Complete change assessment	Change Lead
Pre-Live	ADP-PRE-002	Adoption	Enablement plan missing	Training plan, comms plan	No enablement before go-live	Block release or limit pilot	Change Lead
Pre-Live	RSK-PRE-001	Risk	Risk classification missing	Risk questionnaire	No risk tier assigned	Block approval to proceed	Risk Officer
Pre-Live	RSK-PRE-002	Risk	High-risk classification unresolved	Risk assessment, decision log	Material/high-risk use case without decision	Escalate to governance board	Risk Officer
Pre-Live	RSK-PRE-003	Risk	Residual risk acceptance missing	Risk acceptance record	Residual risk above tolerance	Block release or require acceptance	Executive Sponsor
Pre-Live	RAI-PRE-001	Responsible AI	RAI impact assessment missing	Responsible AI checklist	Required assessment absent	Block release readiness	RAI Lead
Pre-Live	COM-PRE-001	Compliance	AI regulatory classification missing	AI Act/classification record	No classification or outdated classification	Block go-live until classified	Compliance Officer
Pre-Live	COM-PRE-002	Compliance	Policy mapping incomplete	Control register	Required policies not mapped	Complete policy mapping	Compliance Officer
Pre-Live	LEG-PRE-001	Legal	Legal review missing	Legal approval record	Required review absent	Block release	Legal Counsel
Pre-Live	LEG-PRE-002	Legal/IP	IP/copyright risk unresolved	Source/content license review	Unresolved content, output or licensing risk	Legal decision or mitigation	Legal Counsel
Pre-Live	PRI-PRE-001	Privacy	DPIA required but missing	DPIA decision, processing register	DPIA required and absent	Block go-live	DPO
Pre-Live	PRI-PRE-002	Privacy	Lawful basis or purpose missing	Privacy assessment	Personal data use without basis/purpose	Remediate design	Privacy Officer
Pre-Live	PRI-PRE-003	Privacy	Retention design missing	Retention schedule, logging design	No retention rule for prompts/logs/data	Define retention before release	Privacy Officer
Pre-Live	DAT-PRE-001	Data	Data source inventory incomplete	Data source register	Unapproved/unknown data source	Complete inventory	Data Lead
Pre-Live	DAT-PRE-002	Data	Data classification missing	Classification labels, Purview/DLP	Unknown data sensitivity	Classify before use	Data Owner
Pre-Live	DAT-PRE-003	Data Quality	Data quality below threshold	Data quality rules, profiling report	Critical data quality < agreed threshold	Remediate before test/release	Data Steward
Pre-Live	DAT-PRE-004	Lineage	Data lineage incomplete	Lineage map, source-to-output trace	Critical data lineage gap	Fix lineage before sign-off	Data Owner
Pre-Live	KNW-PRE-001	Knowledge	Knowledge owner missing	Knowledge source register	No owner for governed source	Assign owner	Knowledge Owner
Pre-Live	KNW-PRE-002	Knowledge	Source authority hierarchy missing	Source policy, source ranking	Conflicting sources without hierarchy	Define source precedence	Knowledge Owner
Pre-Live	ARC-PRE-001	Architecture	Architecture approval missing	Architecture decision record	No architecture sign-off	Block build	Chief Architect
Pre-Live	ARC-PRE-002	Architecture	Integration pattern not approved	Solution design, integration catalogue	Non-standard or unapproved integration	Architecture review	Solution Architect
Pre-Live	ARC-PRE-003	Resilience	Resilience/rollback design missing	NFRs, rollback plan	No fallback, rollback or degraded-mode design	Block release readiness	Solution Architect
Pre-Live	SEC-PRE-001	Security	Threat model missing	Threat model, STRIDE/attack paths	Required threat model absent	Block release	Security Architect
Pre-Live	SEC-PRE-002	Security	Least-privilege model not approved	RBAC, PIM, access review	Excessive/unapproved permissions	Reduce or approve access	Security Officer
Pre-Live	SEC-PRE-003	Security	Secret management design missing	Key vault, managed identity design	Secrets in code/config or unclear custody	Fix secret management	Platform Owner
Pre-Live	TOOL-PRE-001	Tool Governance	Tool inventory incomplete	Tool catalogue, API inventory	Tool/action missing from approved inventory	Register tool	Agent Owner
Pre-Live	TOOL-PRE-002	Tool Governance	Tool risk tier not approved	Tool risk assessment	High-impact tool without approval	Block tool access	Security Officer
Pre-Live	AUT-PRE-001	Autonomy	Autonomy boundary undefined	Autonomy policy, action matrix	No clear allowed/prohibited actions	Define autonomy boundary	AI Governance
Pre-Live	AUT-PRE-002	Human Oversight	HITL gates missing	Approval workflow design	Material action has no human gate	Block release	Business Owner
Pre-Live	MOD-PRE-001	Model	Model not approved	Approved model catalogue	Model/vendor outside approved catalogue	Replace or submit exception	AI Engineering Lead
Pre-Live	MOD-PRE-002	Model	Model version/configuration missing	Model card, config record	No model version, region, settings or fallback	Complete model record	AI Engineering Lead
Pre-Live	PRM-PRE-001	Prompt	Prompt versioning missing	Prompt repository, version history	No version, owner or change history	Implement prompt governance	AI Engineering Lead
Pre-Live	PRM-PRE-002	Prompt	Prompt safety review missing	Prompt review checklist	No test for unsafe instructions or policy conflicts	Run prompt review	RAI Lead
Pre-Live	EVAL-PRE-001	Evaluation	Evaluation set missing	Evaluation dataset, acceptance criteria	No representative eval set	Block test approval	QA Lead
Pre-Live	EVAL-PRE-002	Evaluation	Required test coverage gap	Test plan, scenario coverage	Critical scenarios not covered	Extend test suite	QA Lead
Pre-Live	EVAL-PRE-003	Fairness	Bias/fairness test missing	Fairness evaluation evidence	Required test absent for impacted users	Run fairness evaluation	RAI Lead
Pre-Live	EVAL-PRE-004	Security Testing	Red-team/prompt-injection test missing	Adversarial test evidence	No adversarial testing for exposed agent	Run red-team tests	Security Officer
Pre-Live	OPS-PRE-001	Observability	Monitoring not configured	Telemetry, traces, dashboards	Missing run traces, eval telemetry or alerts	Block go-live	Ops Lead
Pre-Live	OPS-PRE-002	Operations	Incident runbook missing	Runbook, escalation matrix	No incident workflow before launch	Block go-live	Ops Manager
Pre-Live	FIN-PRE-001	FinOps	Cost model or budget missing	Cost forecast, budget owner	No budget, unit economics or limit	Block scale/go-live decision	FinOps Lead
Pre-Live	REL-PRE-001	Release	Release evidence pack incomplete	Release checklist, evidence register	Missing test/risk/privacy/security/value evidence	Block go-live	Release Board
Pre-Live	REL-PRE-002	Release	Go-live approval missing	Go/No-Go decision log	No approved release decision	Do not release	Business Owner
Live	VAL-001	Value	KPI underperformance	KPI vs target dashboard	<80% target for 2 periods	Value review	Business Owner
Live	VAL-002	Value	Benefits realisation gap	Realised vs planned value	<50% realised after 6 months	Reassess hypothesis	Business Owner
Live	VAL-003	Value	ROI degradation	Expected vs actual ROI	>25% negative deviation	Portfolio review	Executive Sponsor

Lifecycle phase	ID	Category / domain	Control / signal	Evidence / source	Trigger / threshold	Action / gate effect	Accountable role
Live	VAL-004	Value	Value leakage	Planned vs captured benefit	>30% gap	Root-cause review	Business Owner
Live	VAL-005	Value	Adoption-to-value conversion gap	Usage vs KPI impact	High usage with no measurable outcome	Redesign value model	Value Steering
Live	ADP-001	Adoption	Adoption rate low	Active users / target users	<40% adoption	Adoption intervention	Change Lead
Live	ADP-002	Adoption	Adoption decline	30-day active users	>20% decline	Review journey/training	Change Lead
Live	ADP-003	Adoption	Manual bypass rate high	Manual bypass rate	>30% bypass	Process review	Product Owner
Live	ADP-004	Adoption	Negative satisfaction	User satisfaction score	<3.5/5	UX/service review	Product Owner
Live	ADP-005	Adoption	Low repeat usage	Repeat users / first-time users	<30% repeat after 30 days	Adoption diagnosis	Change Lead
Live	RUN-001	Runtime	Low confidence or grounding score	Confidence/grounding score	<70% or below policy band	Trigger human review	Agent Owner
Live	RUN-002	Runtime	Escalation spike	Escalation rate	>15% or >baseline +20%	Workflow review	AI Ops Lead
Live	RUN-003	Runtime	Autonomous action failure	Failed autonomous actions	>2% or 1 critical failure	Pause autonomy	AI Ops Lead
Live	RUN-004	Runtime	Decision override rate high	Human overrides / decisions	>25%	Review decision logic	Product Owner
Live	RUN-005	Runtime	Unexpected workflow path	Run trace anomaly	1 critical unknown path	Investigate	AI Ops Lead
Live	RUN-006	Runtime	Agent loop or retry storm	Repeated tool/model calls	>N retries or cost spike threshold	Stop run; inspect logic	AI Ops Lead
Live	RUN-007	Runtime	Context contamination	Session/context boundary checks	1 confirmed cross-user/session leak	Incident response	Security Officer
Live	RUN-008	Runtime	Memory misuse or stale memory	Memory retrieval and age	Unauthorized, irrelevant or expired memory used	Disable/fix memory	Agent Owner
Live	AUT-001	Autonomy	HITL bypass	Action log vs approval matrix	1 occurrence	Pause autonomy; incident review	Ops Manager
Live	AUT-002	Autonomy	Irreversible action attempted	Delete/submit/approve/publish/pay action log	1 unauthorized attempt	Block action; escalate	Ops Manager
Live	AUT-003	Autonomy	Autonomy escalation without approval	Autonomy config change	Recommend->act or act->execute without approval	Rollback and review	AI Governance
Live	TOOL-001	Tool Governance	Unauthorized tool usage	Tool call logs	1 tool outside allowed scope	Block tool; investigate	Security Officer
Live	TOOL-002	Tool Governance	Tool failure rate high	Tool call success rate	>2% technical failure or SLA breach	Fix integration	Technical Owner
Live	TOOL-003	Tool Governance	Excessive tool calls	Tool calls per task	>approved call budget	Optimize workflow	AI Ops Lead
Live	TOOL-004	Tool Governance	Tool credential misuse	Credential and service principal logs	1 anomalous use	Rotate credentials; incident response	Security Officer
Live	QLT-001	Quality	Hallucination rate high	Validated hallucinations	>5% or critical hallucination	Quality review	Product Owner
Live	QLT-002	Quality	Answer accuracy low	Accuracy score	<85% on validation set	Improve grounding/model	Product Owner
Live	QLT-003	Quality	Task completion rate low	Completed tasks / attempts	<90% or below target	Review implementation	Product Owner
Live	QLT-004	Quality	Recommendation acceptance low	Accepted recommendations	<25%	Review usefulness	Business Owner
Live	QLT-005	Grounding	Citation support failure	Citation correctness review	<95% support for critical answers	Fix retrieval/citation logic	Knowledge Owner
Live	QLT-006	Evaluation	Production evaluation regression	Online eval vs baseline	>5-10% regression	Open change/release cycle	QA Lead
Live	KNW-001	Knowledge	Knowledge freshness breach	Source age by source type	Outside source-specific freshness policy	Content review	Knowledge Owner
Live	KNW-002	Knowledge	Unanswered rate high	No-answer / fallback rate	>10%	Knowledge gap review	Knowledge Owner
Live	KNW-003	Knowledge	Source conflict detected	Conflicting source ratio	>5% or 1 critical policy conflict	Resolve source hierarchy	Knowledge Owner
Live	KNW-004	Retrieval	Retrieval relevance low	Top-k relevance score	Below approved threshold	Tune index/retriever	AI Engineering Lead
Live	KNW-005	Access Control	Permission trimming failure	Retrieved docs vs user permissions	1 occurrence	Incident response	Security Officer
Live	SEC-001	Security	Prompt injection attempts	Security detector events	>10/day or anomalous campaign	Security review	Security Officer
Live	SEC-002	Security	Successful prompt injection	Confirmed policy/tool/data bypass	1 occurrence	Incident response; patch guardrails	SOC
Live	SEC-003	Security	Unauthorized access	Access violation	1 occurrence	Block and investigate	Security Officer
Live	SEC-004	Security	Data exfiltration attempt	DLP alert / egress event	1 occurrence	Incident response	Security Officer
Live	SEC-005	Security	Secret exposure	Secret scanning in prompt/response/logs	1 occurrence	Rotate secret; incident response	Security Officer
Live	SEC-006	Security	Abnormal usage pattern	Usage, token, geo, auth anomaly	Outside behavioural baseline	Investigate	SOC
Live	SEC-007	Security	Supply chain vulnerability	Dependency/package/image scan	Critical vuln in runtime path	Patch or isolate	Platform Owner
Live	PRI-001	Privacy	PII exposure	DLP/content safety event	1 occurrence	Immediate escalation	Privacy Officer
Live	PRI-002	Privacy	Retention violation	Retention checks	1 exception	Remediate/delete	Privacy Officer
Live	PRI-003	Privacy	Data subject request SLA breach	DSR SLA tracking	Missed SLA	Escalate	DPO
Live	PRI-004	Privacy	Personal data in logs	Log inspection/DLP	Unexpected personal data in logs	Mask/delete; update logging	Privacy Officer
Live	COM-001	Compliance	Regulatory/control failure	Control assessment	1 failed critical control	Remediate or pause	Compliance Officer
Live	COM-002	Compliance	Critical audit finding	Open audit findings	>0 critical	Action plan	Compliance Officer
Live	COM-003	Compliance	Policy violation	Policy engine result	1 policy breach	Investigate	Compliance Officer
Live	COM-004	Compliance	Operational log retention gap	Log retention evidence	Logs unavailable before minimum retention	Fix retention; assess impact	Compliance Officer
Live	RAI-001	Responsible AI	Bias indicator outside approved band	Bias/fairness tests	Outside approved band	Responsible AI review	RAI Lead
Live	RAI-002	Responsible AI	Fairness degradation	Fairness metric vs baseline	>10% degradation	Review model/data	RAI Lead
Live	RAI-003	Responsible AI	Explainability gap	Explainable decisions ratio	<90% for governed decisions	Review explanation mechanism	RAI Lead
Live	OPS-001	Operations	Availability degradation	Availability/SLA	<99% or agreed SLO	Operational review	Platform Owner
Live	OPS-002	Operations	Latency increase	p95 response time	>5 sec or agreed SLO breach	Performance tuning	Platform Owner
Live	OPS-003	Operations	Technical failure rate high	Failure rate	>2%	Incident review	AI Ops Lead
Live	OPS-004	Operations	Dependency failure	External dependency availability	>3 consecutive failures or >4h outage	Escalate; continuity plan	Platform Owner
Live	OPS-005	Operations	Rate-limit saturation	Quota/rate-limit telemetry	>80% sustained or hard throttle	Capacity action	Platform Owner
Live	OPS-006	Observability	Missing run trace	Trace completeness	<100% for critical runs	Fix telemetry	Ops Lead
Live	FIN-001	FinOps	Cost spike	Monthly cost trend	>30% above rolling average	FinOps review	FinOps Lead

Lifecycle phase	ID	Category / domain	Control / signal	Evidence / source	Trigger / threshold	Action / gate effect	Accountable role
Live	FIN-002	FinOps	Cost per outcome above plan	Cost/successful outcome	>20% above plan	Optimize model/tool flow	FinOps Lead
Live	FIN-003	FinOps	Budget consumption high	Budget used	>90% before period end	Approval review	Executive Sponsor
Live	FIN-004	FinOps	Retry-loop cost leakage	Cost per failed run / retries	>threshold or anomaly	Stop loop; fix logic	AI Ops Lead
Live	CHG-001	Change	Unapproved prompt change	Prompt repo vs prod config	Any unapproved prod change	Rollback or approve	AI Engineering Lead
Live	CHG-002	Change	Model version changed without regression test	Model config/change log	Any prod version change without eval	Rollback; run eval	AI Engineering Lead
Live	CHG-003	Change	Knowledge source changed without validation	Indexing/source change log	Critical source changed without validation	Revalidate retrieval	Knowledge Owner
Live	CHG-004	Guardrails	Guardrail regression	Safety/policy eval score	>5% degradation or 1 critical bypass	Patch guardrails	RAI
Live	LIF-001	Lifecycle	Owner unavailable or changed	RACI, HR/source owner check	No active accountable owner	Assign successor	Business Owner
Live	LIF-002	Lifecycle	Periodic review overdue	Review schedule	Past due	Trigger operational review	Agent Owner
Portfolio	PRT-001	Strategy	Strategic opportunity not assessed	Strategic objectives vs AI opportunity log	Critical objective not assessed	Discovery workshop	AI Portfolio Lead
Portfolio	PRT-002	Strategy	KPI coverage gap	Critical KPIs vs use cases	Critical KPI has no assessed use case	Portfolio review	Value Steering
Portfolio	PRT-003	Rationalisation	Duplicate capability	Agent capabilities map	>3 agents solving same problem	Rationalisation review	Architecture Board
Portfolio	PRT-004	Reuse	Reuse opportunity identified	Capability similarity, reuse score	Cross-domain applicability found	Scale/reuse proposal	AI Portfolio Lead
Portfolio	PRT-005	Ownership	Orphaned agent/use case	Registry owner/sponsor fields	No owner or sponsor	Assign, pause or retire	Portfolio Board
Portfolio	PRT-006	Portfolio Health	Portfolio health degradation	Aggregate risk/value/adoption dashboard	Worsening trend over 2 periods	Portfolio intervention	Portfolio Board
Portfolio	VAL-PORT-001	Value	Aggregate value below plan	Portfolio realised vs planned value	<70% planned value realised	Reprioritise investments	Value Steering
Portfolio	VAL-PORT-002	Value Risk	Value concentration risk	Value by agent/domain	Top agent/domain carries excessive value dependency	Resilience/redundancy plan	Executive Sponsor
Portfolio	VAL-PORT-003	Value Integrity	Duplicate benefit claim	Benefit ledger / finance validation	Same benefit claimed by multiple agents	Resolve attribution	Finance
Portfolio	VAL-PORT-004	Value	High usage, low value agent	Usage vs KPI impact	High active use with weak/no outcome	Redesign or retirement review	Business Owner
Portfolio	SCL-001	Scale	Scale readiness evidence missing	Scale readiness pack	Missing value, risk, ops, adoption or compliance evidence	Block scale approval	Steering Committee
Portfolio	SCL-002	Scale	Scale candidate under-documented	Pilot-to-scale evidence	Pilot lacks quantified results or risk evidence	Extend pilot	AI Portfolio Lead
Portfolio	SCL-003	Scale Risk	Scale blocked by compliance/risk	Open critical controls	Any unresolved critical control	Do not scale	Compliance
Portfolio	SCL-004	Scale Execution	Scale execution lag	Scale plan milestones	>20% milestone slippage	Escalate delivery plan	Solution Lead
Portfolio	RAT-001	Rationalisation	Overlapping investments	Backlog/funding map	Multiple funded initiatives for same capability	Merge or stop work	Portfolio Board
Portfolio	RAT-002	Rationalisation	Low-value long tail	Cost, usage, support load	Low usage/value with ongoing cost	Retirement candidate	FinOps
Portfolio	RAT-003	Reuse	Reusable asset not adopted	Reuse catalogue vs new builds	Teams rebuild approved capability	Enforce reuse or exception	Architecture Board
Portfolio	RAT-004	Architecture	Component sprawl	Components, models, patterns count	Uncontrolled variation across teams	Standardisation review	Chief Architect
Portfolio	FIN-PORT-001	FinOps	Portfolio cost growth exceeds value growth	Cost growth vs value growth	Cost grows > value for 2 periods	Investment review	FinOps Lead
Portfolio	FIN-PORT-002	FinOps	Unit cost variance by team/domain	Cost per outcome by team	>30% unexplained variance	Benchmark/optimize	FinOps Lead
Portfolio	FIN-PORT-003	FinOps	Idle capacity or unused licences	Utilisation/licence telemetry	Unused >30/60 days or below utilisation band	Rightsize/reallocate	Platform Owner
Portfolio	RSK-PORT-001	Risk	High-risk concentration	Risk tier distribution	Too many high-risk agents in one domain/platform	Risk concentration review	Risk Officer
Portfolio	RSK-PORT-002	Dependency	Critical dependency concentration	Dependency map	Multiple critical agents rely on single weak point	Resilience plan	Platform Owner
Portfolio	RSK-PORT-003	Risk Trend	Cross-agent incident trend	Incident trend by category	>20% increase or repeated category	Systemic risk review	Risk Officer
Portfolio	RSK-PORT-004	Vendor Risk	Vendor/model risk escalation	Vendor notices, SLA/security ratings	Critical vendor notice or SLA trend	Vendor risk review	Procurement
Portfolio	GOV-PORT-001	Governance	Registry completeness gap	AI registry completeness score	<100% critical fields for live agents	Clean-up campaign	Transformation Office
Portfolio	GOV-PORT-002	Governance	Unresolved open controls	Control register	Critical controls overdue	Escalate to board	Compliance Officer
Portfolio	GOV-PORT-003	Risk Acceptance	Overdue risk acceptance review	Risk acceptance expiry dates	Expired acceptance	Renew, reduce or retire	Risk Officer
Portfolio	GOV-PORT-004	Evidence	Evidence quality gap	Evidence completeness/quality score	Missing or unverifiable evidence	Remediate evidence register	Governance Office
Portfolio	ARC-PORT-001	Architecture	Architecture drift	Architecture conformance checks	Unapproved pattern deviation	Architecture review	Chief Architect
Portfolio	ARC-PORT-002	Architecture	Common capability missing	Capability heatmap	Repeated bespoke implementations	Create reusable platform capability	Architecture Board
Portfolio	RET-001	Retirement	Unused agent retirement candidate	Usage telemetry	No meaningful use for 60 days	Retirement review	Business Owner
Portfolio	RET-002	Retirement	Business owner requests retirement	Owner request / service review	Formal owner request	Approve retirement plan	Business Owner
Portfolio	RET-003	Retirement	Model/vendor deprecation	Vendor/model notice	Deprecation within migration window	Migration or retirement plan	Technical Owner
Portfolio	RET-004	Closure	Archival evidence incomplete	Closure checklist, evidence archive	Missing logs, approvals, risk closure or data deletion evidence	Block closure	Compliance Officer
Portfolio	RET-005	Closure	Retired agent still accessible	Access/runtime inventory	Retired endpoint/tool remains active	Disable and investigate	Ops Manager
Portfolio	MTR-001	Cadence	Governance cadence missed	Meeting calendar, decision logs	Portfolio board or review missed	Reschedule/escalate	Transformation Office
Portfolio	MTR-002	Cadence	KPI/value review missed	Review schedule, value dashboard	Value review overdue	Trigger review	Value Steering
